- {e} "Decibel (dB)" means a unit of measuring the volume of sound, equal to twenty (20) times the logarithm of the base ten (10) of the ratio of the pressure of the sound measured to the reference pressure, which is twenty (20) micropascals (twenty (20) micronewtons per square meter).
- {f} "Dock" means a pier, platform, or other structure extending from the shore of a lake or river over the water to which a boat is moored.

#### **Section 4. Regulations.** No person shall

{a} Construct, place, or maintain a dock, hoist, or mooring device on a road ending or public access site, except as provided in this subsection. Blue Lake Township may construct, place and maintain a nonexclusive dock on a road ending or public access site to aid the general public in gaining access to the lake or river.

{b} Anchor, beach, or moor an unattended boat on a road ending or public access site for more than five (5) consecutive hours, except in the case of an emergency, the mechanical breakdown of a boat, or as otherwise provided in this subsection.
